

OpenEdition Journals is part of the OpenEdition portal, a comprehensive digital publishing infrastructure for scientific communication in the humanities and social sciences. OpenEdition is a public, non-profit initiative supported by major research institutions. Its primary mission is to promote open access digital publishing.

OpenEdition Freemium is a program aimed at developing open access publishing in the humanities and social sciences. The goal of the partnership is to build a sustainable financial model. All proceeds from the program are reinvested into expanding open access, with two-thirds going to journals and one-third going to OpenEdition.

OpenEdition Freemium for Journals

A subscription to humanities and social sciences journals for libraries and institutions

Subscribe to the Freemium journal bundle

All Freemium journal publications are available to all Internet users in open access HTML format. An annual subscription to [OpenEdition Freemium for Journals](#) gives libraries and their users access to PDF and ePub formats without technical (DRM) restrictions or download quotas. The subscription also includes other related services. The [Freemium journal bundle](#) is updated annually on January 1.

Formats

Users at partner institutions receive access to content in all formats, **without DRM restrictions or download quotas**.

HTML: Read journals online in HTML format.

PDF and ePub: Download articles as PDF files or journals in ePub format.

Subscription

We charge fair rates based on the number of full-time equivalent students or employees in humanities and social sciences at the university or institution and on the GDP of the country of residence.

TRY IT FREE FOR 3 MONTHS

Services

Partner institutions also receive access to services specially designed for libraries, such as COUNTER statistics, MARC records, OPDS, customized portals and downloadable formats, and training and support.
