

Subscription to Freemium books

Overview

As of January 2022, OpenEdition will offer libraries and their users a new way to access books published on OpenEdition Books: the Subscription to Freemium books.

The subscription grants access to all the books published in Freemium open access, more than $\frac{3}{4}$ of the current OpenEdition Books catalog. This means that together with the full text available to everyone in HTML, subscribing libraries and their users will be able to download ePub and PDF formats, and access the Reader mode for all the Freemium books.

The benefits of this offer:

- make more than 9,000 books available at attractive prices;
- simplify library purchase processes, making selection easier;
- actively support publishers publishing their content in Freemium open access.

→ Duration: calendar year.

Books are available for the duration of the subscription, without DRM or download quota.

→ Update: new books integrated once a month.

Index and make books easily discoverable thanks to updated data on BACON.

The subscription includes all premium services designed for libraries as part of the OpenEdition Freemium for Books offering.

Terms of subscription, prices

Send us your quotation request by mentioning your institution's FTE (full-time equivalents) in the humanities and social sciences. Upon receipt of your order, access to Freemium books will be activated for the current calendar year.

Prices are offered by FTE tier,
according to the following price grid:

INSTITUTIONS			
Tier	Students in SSH	Employees	Subscription Annual Price excl. VAT (k€)
1	< 100	< 10	5
2	101 to 500	11 to 50	5
